

Welcome Observation Students

Enloe Rehabilitation Center offers observation hours for students interested in Physical, Occupational, and Speech Therapy careers. Many of you need to collect formal hours for application to the school of your choice and we can provide written documentation of your hours for your applications.

To begin observing, you need to obtain a PPD TB clearance. This should be arranged by you through your doctor, student health, or public health dept, etc. You will bring me a copy of the clearance form they provide you. Be sure it has the date administered, date read, mm of induration and which arm, left or right, was tested and the signature of the person who administered and read the test for you.

Professional attire is expected while you observe. Hours of observation can occur Monday through Friday as follows:

PT 8:30 to 5:30

OT 7:30 to 4:30

ST 8:00 to 5:00

Please contact me to set up an appointment. This appointment will take approximately 30 minutes and at that time I will take a copy of your photo id as well as your TB clearance and provide you an orientation to the facility.

I look forward to hearing from you,

Brenda Logan
