**Our Mission**
To improve the quality of your life through patient-centered care.

**Our Vision**
Enloe Medical Center: The first choice for health care.

**Your Support Makes a Difference**
As an independent, nonprofit hospital, Enloe Medical Center has a long history of gathering support from our community as we work to enhance equipment, programs and facilities that benefit our region.

Your generous support helps us continue to provide high-quality care close to home. You make all the difference for the patients coming through our doors – which are open 24 hours a day, seven days a week.

**Growing Greatness Together. Give Today.**

**Your Giving Grows Greatness**

We welcome your comments.
Please use the enclosed envelope to provide feedback, ask questions or offer an additional gift.

*Give online at www.enloe.org/give*
On behalf of our Board of Trustees, it is with great pleasure that I submit to you our annual Foundation report. Now more than ever it is important that your charities of choice demonstrate accountability, efficiency and community purpose so you can be assured your gifts are being used wisely.

In this report, you will see how much funding has been raised through your generosity, how efficiently it was raised, and how it has benefitted your local hospital, health network and community.

While the Novel Coronavirus (COVID-19) has been taxing, Enloe Medical Center has not only met the challenge of the pandemic, we have been able to maintain and even expand the other health services so vital to our community — all as we continue to be one of the leading hospitals in the country for quality, safety, service, and value. None of this would have been possible without your support.

More than anything, we hope you will see in the pages that follow our sincere appreciation for the community we serve, and for your faith in us. Thank you!

Mike Wiltermood, President & CEO, Enloe Medical Center
Awards, Accomplishments & Accreditations

Healthgrades™ Recognizes Enloe Medical Center Among America’s 250 Best Hospitals

Additionally, for the second consecutive year, Healthgrades ranked Enloe Medical Center as one of America's 100 Best Hospitals for General Surgery and Gastrointestinal Care.

Each year, Healthgrades measures hospital performance nationwide and releases ratings and achievements to help guide consumers in making informed health care choices.

Enloe was also recognized for the following clinical achievements:
- Named Among the Top 5% in the Nation for Cranial Neurosurgery for 2 Years in a Row (2020-2021)
- Named Among the Top 10% in the Nation for Critical Care in 2021
- Five-Star Recipient for Treatment of Heart Attack in 2021
- Five-Star Recipient for Total Hip Replacement for 3 Years in a Row (2019-2021)
- Five-Star Recipient for Treatment of Sepsis for 3 Years in a Row (2019-2021)
- Five-Star Recipient for Treatment of Respiratory Failure for 3 Years in a Row (2019-2021)

Enloe Receives Leapfrog’s Top General Hospital Designation for 2020

In spring and fall 2020, Enloe Medical Center achieved the highest possible Hospital Safety Score: an A, ranking us among the safest facilities in the country.

Enloe has earned this recognition nine of the previous 10 grading periods. The rating is based on hospital performance in five general areas.

To see Enloe’s full grade and to access patient safety tips, visit www.hospitalsafetygrade.org

U.S. News & World Report Recognizes Enloe Medical Center

U.S. News & World Report designated Enloe Medical Center as a Northern Sierras Best Regional Hospital for 2020-2021. The medical center was also highlighted as a top performer in these five lines of service:
- Abdominal aortic aneurysm repair
- Colon cancer surgery
- COPD
- Heart failure
- Knee replacement

Enloe Makes Newsweek’s Best Maternity Hospitals List

Enloe Nettleton Mother & Baby Care Center made Newsweek’s Best Maternity Hospitals list for 2020. Only 45 hospitals in California made the list, and 231 nationwide were recognized.
David Oberlin, M.D., wanted to inspire others — and he succeeded!

“He was a wonderful man, a loving father, husband, and an inspiring role model to me of humor, generosity, compassion, and kindness,” said his daughter, Elizabeth Oberlin Olson. “He donated property, as well as his time to Enloe Medical Center because he believed Enloe was a quality medical facility, and he agreed 100% with Enloe’s mission of providing excellent and compassionate health care to all.”

Not only did Dr. Oberlin devote 35 years to providing high-quality orthopedic care in the North State, he was also a founding member of the Enloe Foundation Board of Directors. Dr. Oberlin died in late 2019, but his legacy lives on as the Foundation continues its work to support Enloe Medical Center.

Recognizing the need to help keep Enloe at the leading edge of medicine, a dedicated group of volunteer board members came together to establish the Foundation. In addition to Dr. Oberlin, founding board members included: Chairman Louis G. Chrysler Jr., Vice Chairman Sylvester Lucena Jr., Secretary Dorothy Washington, President James P. Sweeney, CFO Richard Hothem, and members Stan Anderson, Joseph G. Brattan Jr., Valene Golay McIntyre, Fred S. Montgomery, James Morehead, Howard O’Neill, Alice S. Starmer, Stuart G. Thompson and J. Thomas Wallace III.

Those dedicated volunteers set the course for the Foundation. Today, the Enloe Foundation is proud to continue the legacy of serving our patients and community, thanks to the generous support of our donors and tireless efforts of our volunteer leadership.

Forever Grateful
We will miss having Dr. Oberlin as a proud Enloe Foundation Golf Tournament sponsor. He began sponsoring the tournament in 1990 and never missed a year — even after he retired and moved out of the area. His support inspired many other physicians to join us. We are forever grateful.

“We will miss having Dr. Oberlin as a proud Enloe Foundation Golf Tournament sponsor. He began sponsoring the tournament in 1990 and never missed a year.”

David Oberlin, M.D. 1929-2019

A Closer Look at the Founders
Established as a nonprofit in 1986, the Enloe Foundation was created to secure contributions to support Enloe Medical Center.
2020 was certainly a year of ever-changing challenges. However, through it all, we found many silver linings. We learned a lot about caring for each other. We creatively found ways to stay connected through technology. In our personal lives, we may have connected with an old friend we had lost track of or attended a drive-by birthday party to bring smiles to a loved one. At the medical center, we used technology to keep our patients safely close to their families as they received care. Babies were welcomed to the world, and patients celebrated positive health outcomes.

Ongoing Support Sends Clear Message
With all the ups and downs of the coronavirus roller coaster, you were always there — sharing hope and spreading joy when our community needed it most. In addition to helping fund life-saving equipment, patient comforting programs and state-of-the-art facilities, you have created an atmosphere of support that lifts the spirits of every Enloe caregiver.

Your ongoing support sends a clear message to Enloe caregivers that you stand with us, encouraging and empowering us to do our very best every day. It gives us the extra strength we need in challenging times to continue providing quality care for our patients and their families, regardless of the hurdles in our path. You cover us in a blanket of compassion and joy that truly warms our souls.

In this report, you will find many stories reflecting the ways in which your gifts have made a positive impact on the lives of our patients and their families. As you read through it, I truly hope you will experience joy in knowing you made a similar impact on our caregivers as well. We could not do this work without you, and we are more grateful than we can express.

The Path Ahead
Thanks to you, the path ahead of us is a hopeful one. The opportunities to make a positive difference in the lives of others are greater than ever. Knowing you are walking alongside us will make the journey easier. Thank you for continuing to be a silver lining for our patients, our caregivers and our community.

Jolene Francis, FAHP, CFRE
Director of Advancement & Communications

"Your ongoing support sends a clear message to Enloe caregivers that you stand with us, encouraging and empowering us to do our very best every day."
Foundation Board Chairs’ Message

As the outgoing Enloe Foundation Board Chair, I would like to express, what a extreme pleasure it has been to serve our community in this capacity.

All those serving on the Foundation Board have consistently been overwhelmed by the generosity of people in our region and beyond. With your support during these past many years, Enloe Medical Center has been able to add new facilities and upgrade existing ones to provide the best care possible.

Amazing Generosity
The medical center has purchased and equipped a much-needed helicopter to serve our rural region and has updated the Cardiovascular Care Center to state-of-the-art status. We have also provided for numerous other needs of patients and families served by the hospital. These improvements not only enable Enloe to effectively serve those who live and work in our region, but also help attract the best doctors, nurses, and other essential medical personnel to live and work in our community.

What is even more amazing is that your generosity continues through fires, floods, pandemics and other major disasters that affect our communities. For that, the Foundation Board of Directors will always be extremely grateful.

Bright Future Ahead
I look forward to continuing as a member of the Foundation Board of Directors, as we face future challenges and the bright future that is ahead of us. I also look forward to the leadership of our new Foundation Board Chair, Judy Sitton, as well as the ongoing support of our donors.

Mark Kimmelshue
Past Chair, Enloe Foundation Board of Directors

As Mark passes the baton to me, I want to thank him for his exemplary work as Chair of Enloe Medical Center’s Foundation Board of Directors. Mark has provided exceptional leadership throughout his years of service to the board in all capacities. I hope to carry on his legacy of success, leadership and fundraising. I am so proud of how the Enloe community faced one of the toughest years in 2020. I know the year ahead will be marked by challenges, but as with 2020, continued hope, success and positive action will prevail.

Carrying a Legacy of Success
My passion for Enloe, its caregivers and support of its mission, vision and values will continue to drive me in my new role. I’ve been fortunate for the past 17 years to have served on the Board of Trustees, as well as to Chair the Planetree Leadership Team. Today, I am grateful to continue supporting the medical center through the Quality Committee, Patient and Family Action Committee, Women in Touch and Foundation Board - and now to also serve as Chair of the Foundation Board.

Ensuring the Best Patient-Centered Care
Enloe has received several top healthcare ratings and awards due to its exceptional patient-centered care, services and support. To maintain this level of care, we want to ensure we are offering the most needed services to our area in the best possible way. Thus, I hope you’ll continue to join with us in the future, as you have in the past, to bring outstanding services, staffing, clinical support, and care to the North State and beyond. Your commitment, support and appreciation for Enloe have been expressed in so many ways.

With deepest gratitude to each of you for your service to Enloe Medical Center,

Judy Sitton
Chair, Enloe Foundation Board of Directors

A special thank you to retiring board members for your dedicated service

Kenneth N. Derucher, Ph.D.
Served on the Enloe Foundation Board of Directors from 2009 through 2020.

Christopher Mayer
Served on the Enloe Foundation Board of Directors from 2019 through 2020.

Michael O’Donnell
Served on the Enloe Foundation Board of Directors from 2015 through 2020.

Dick Stein
Served on the Enloe Foundation Board of Directors from 2007 through 2020.
Jessica Walters was a fierce, self-made professional in the Chico real estate industry. She fought hard for the things she believed in — building relationships, sharing her knowledge and enhancing her community. She also fought her own personal battle with Alzheimer’s disease.

Extraordinary Example
A native Californian, Jessica worked her way up the ranks of the Frigidaire Division of General Motors Corp., becoming the first woman district sales manager in Northern California. A new opportunity in real estate sales and development brought her to Chico in 1978, and it is this career that carried her through the rest of her life.

Her talents propelled her to early success working with Fran Shelton Realty and then Coldwell Banker DuFour Realty. Consistently a top sales associate, she served as President of the Chico Association of Realtors in 1987 and was subsequently named Realtor of the Year in 1989 by the association. In 2009, she was recognized for a lifetime of achievement as recipient of the prestigious Chico Association of Realtors President’s Award.

Jessica cared deeply about her clients and was dedicated to helping them achieve their dreams of home ownership. Her work was relational, rather than transactional, as many of her clients became lifelong friends. She set an extraordinary example for professional women and joyfully shared her skills and talents as a mentor to those just joining the real estate industry.

Provisions for Legacy Gifts
Jessica also cared deeply for her community, making provisions for legacy gifts to support several important charities, outlined in her estate plan. Her love of community created a natural affinity to Enloe – which serves a broad regional footprint – as evidenced by the Enloe Foundation being named among the charities she identified. Uniquely, Jessica memorialized those gifts by making Enloe a beneficiary on her IRA accounts.

Jessica's fighting spirit lives on through her forward-thinking gifts to Enloe. We know that she would be pleased those gifts are being put to work serving friends, families and neighbors in the community she loved so well.
Guardian Circle

The Guardian Circle celebrates and recognizes members who have committed planned gifts. From gifts of securities to gifts of property, these individuals have made a lasting impact for countless patients who will benefit from it well into the future.

Guardian Circle members
As expected, 2020 was a challenging year for Enloe Medical Center. We experienced, and in many cases overcame, unprecedented financial and service delivery challenges resulting from the Novel Coronavirus (COVID-19) pandemic. The loss of elective procedures and people forgoing often critically needed medical care had a dramatic financial impact on hospital operations and the health of our community. This coupled with personal protective equipment shortages and increased pressure on caregivers pushed our operations to the limit.

We were certainly not alone. Our nation’s hospitals faced similar financial and operational challenges. The CAREs Act, in part, provided funding directly to the nation’s hospitals to offset COVID-19-related financial losses. The legislation’s allocation of provider relief funding received by Enloe Medical Center was enough to offset much of the organization’s operating losses, but not entirely.

Adding Telehealth Services
Telehealth helped address the need for care in our community. In March 2020, we expedited the information technology strategic initiative to build out telehealth as a channel to our care model. Within weeks, our Information Services department developed and rolled out telehealth services for Enloe providers and clinic offices. We went from zero telehealth visits in February 2020 to nearly 3,200 by April 2020 and the months following through the end of the year.

Staffing demands have fluctuated over the past year. Early in the pandemic, our clinical areas flexed staffing to help offset financial challenges, and the Information Services department provided the infrastructure and technologies that allowed nearly 600 of our employees to work from home. Though we are facing continued uncertainty, the good news is we have seen increases in some of our key utilization measures. There has been marked improvement, and in some cases a resurgence of utilization in key service lines, including surgery, cardiovascular services, cancer and many of our specialty clinics. Emergency department volumes remain down by 25-35% for our medical center and nationally. It is the hope this utilization change will remain and better reflect the optimal role of the Emergency department.

Foundation Plays Strategic Role
Only through positive operating performance does the medical center have the necessary resources to adequately reinvest in facilities, equipment and technology. In normal times, the Foundation plays a strategic role in fundraising efforts ensuring our patients, providers and staff have the needed tools to care for our community. The circumstances of 2020 demonstrate again how integral the Foundation is to Enloe Medical Center as a key source of the needed funding to move our organization forward.

The pandemic will have a lasting impact on our health system, and — in some ways — has propelled us years forward in our health care delivery model. This has forever changed the organization, and as normalcy returns, we will continue to rethink our long-term investment strategies in our services, facilities and technology.

Your Support Provides Stability
No matter the circumstances, your consistent support provides a level of stability for the medical center. We are extremely grateful for the strategic role all our donors play in ensuring our patients, providers, and staff have the needed tools and resources to care for our community.

Advancing Cancer Treatment Technology
Gifts to our Enloe Regional Cancer Center has allowed the Enloe Foundation to grant $500,000 toward the purchase of a MRIdian ViewRay Linear Accelerator. Construction and installation are currently underway.

This emerging technology far surpasses most cancer treatments currently available in California with Enloe expected to become the 3rd in the state to acquire and will be one of 17 installations in the U.S. and 42 worldwide.

Combining real-time tumor imaging with precise delivery of treatment, Radiation Oncologists have far better imaging of precise location of the tumor before daily radiation treatments, which allows them to customize the daily treatment to any anatomical changes to the patient.

Fewer Treatments, Better Outcomes
With the increased accuracy, this means cancer patients will benefit from shorter treatments, fewer side effects, greater protection of healthy tissue and better outcomes. Imagine a patient with prostate cancer that would normally receive 45 treatments; with this technology we can treat them in 5 treatments.

In addition, your gifts supported the purchase of a $25,000 prone breast cancer device — helping breast cancer patients remain in a comfortable position while undergoing the ViewRay linear accelerator treatment.

Thanks to your support, our compassionate caregivers have the latest technology to care for cancer patients at the Enloe Regional Cancer Center.
Your Dollars at Work
Making a Difference

Safe Air Transport During a Pandemic
Enloe’s investment in FlightCare points to a commitment to keep this critical program locally owned and controlled, ready to respond when you need us. FlightCare saves lives in the North State by responding to emergencies and providing medical care while transporting injured or sick people.

In 2020, Enloe forged ahead with needed enhancements while rising to meet the new challenges of COVID-19. For FlightCare, this meant the purchase of new ventilators to safely transport COVID-19-positive patients. Enloe Foundation’s contribution of $68,328 funded these improvements.

Caring for Our Smallest Patients
Mother and baby care are top priorities at Enloe, evident in our constant investment in leading-edge technology in our Neonatal Intensive Care Unit (NICU). To help infants and preemie babies’ bond with their mothers, the Enloe Foundation contributed $7,890 for the purchase of the Phototherapy Blankets.

These sleep swaddles are equipped with a special light to help treat jaundice. Prior to this, infants who needed light therapy had to lay separate from their mothers, which interrupted optimal sleep and bonding. Enloe’s commitment to exceptional care, coupled with your generosity, means we can invest in continual improvements to meet the growing needs of our community, starting with our tiniest patients.

New Laboratory Equipment to Process COVID-19 Tests
Enloe’s Clinical Laboratory serves patients at the medical center and those referred by community physicians. The pandemic brought a high demand for COVID-19 testing for hospital patients. This required not only another containment hood to protect our clinical laboratory scientists, but also special testing modules.

We are thrilled to announce the Enloe Foundation granted $64,550 to the Clinical Lab to purchase all these specialized items needed in the fight against COVID-19. Together, we can ensure the safety of our community and our caregivers.

Investing in Our Caregivers – Enloe Foundation Scholarships
Thanks to generous donations from community members, along with Enloe employees and volunteers, 26 Enloe caregivers received a total of $20,000 last year to support their continuing education. Our scholarship program supports highly qualified caregivers, furthering Enloe Medical Center’s ability to maintain the most skilled and compassionate caregivers for our community.
Enloe’s New Structural Heart Program

“We are so excited to share the that, as of Dec. 31, 2020, Enloe Medical Center successfully completed over 100 Transcatheter Aortic Valve Replacement (TAVR) procedures. All patients were discharged without issue, and their 30-day follow-ups have shown great outcomes.

Enloe completed its first TAVR procedure Jan. 28, 2020, after a year of planning, organizing, developing, and training our structural heart team and establishing the Structural Heart & Valve Center.

Cardiovascular Care Services Expands

The Structural Heart & Valve Center team is a multidisciplinary group made up of an interventional cardiologist, cardiothoracic surgeon, anesthesiologists, as well as Perfusion, Cardiac Cath Lab, surgical, and Diagnostic and Radiology staff. Patients are supported before and after their procedures by caregivers in the CV Prep Recovery unit, ICU and Cardiovascular Unit.

Enloe Medical Center has the only structural heart program in the North State. We hope to soon offer MitraClip and left atrial appendage closure procedures as we further develop the program. The development of the program helps Enloe meet an identified community need for broader cardiovascular services in Northern California.

The Enloe Foundation is proud to be part of this groundbreaking program as an important addition offered in the new Starmer Cardiovascular Care Center, and we thank the hundreds of families whose financial gifts to the Enloe Foundation helped make the new center a reality.

To learn more visit www.enloe.org/tavr.
By working together and giving together, our caregivers are making a big difference together.

With nearly 1,000 employees, volunteers and medical staff contributing to our two-week virtual Giving Together campaign in October, we raised over $42,758.

Many of our caregivers generously support Enloe through payroll deductions, pledges and yearly contributions. Annually, Enloe caregivers donate over $250,000 to support excellent patient care. Their generous support and dedication to our patients positively impacts every area of care.

Hear why these Enloe caregivers give and be ready to be inspired!

“What I love about my job is that I get to work with some of the most dedicated, specialized teams that are always providing a high-level of care at all hours of the day and night. I know every little bit counts and I see my donations go to work.”
- Gustavo Covarrubias, RN, Cardiac Cath Lab Nurse

“Working alongside all of [Enloe Caregivers] is why I’m so proud to give. If I can give back to the organization that gives so much to me, I’ll happily do that.”
- Sara Calderon, Epic IS Trainer II

“Working with my fellow co-workers is like working with an extended family. [I feel] it’s important to give back to the hospital because there’s not a lot of nonprofits like ours.”
- Brittny Hveem, Unit Secretary

“I feel privileged to work at Enloe and I feel that it’s my duty to give to such an organization which stands for so much good. Enloe’s excellence is not dependent on one particular thing - it’s all of us together.”
- Harpartap Sandhu, M.D., Emergency Medicine
Betty Dean was passionate about providing great care to patients — and she was instrumental in bringing Planetree to Enloe Medical Center.

**Planetree Philosophy**
After seeing the philosophy that aims to personalize, humanize and demystify health care in action during a trip to Stamford Medical Center in Connecticut, Dean brought back what she learned, and Enloe began exploring Planetree, eventually becoming a Planetree hospital.

"Betty was a wonderful role model and friend to Enloe Medical Center. She was looked upon as one of a kind. We will be forever grateful." said Enloe’s Chief Nursing Officer Connie Rowe, RN, Vice President, Patient Care Services.

Dean, a former Enloe board chair, died on Aug. 24 at the age of 79 after a battle with cancer.

**Scholarship to Honor Dean**
Education played an important role in her life. To honor Dean and her contributions, the Enloe Foundation created a new scholarship in her name with her husband, Clyde Powers. The Betty Dean Scholarship will assist Enloe employees who are attending nursing school.
